

HEALTHCARE WHERE IT'S NEEDED MOST

Mercy Care is a recognized Patient Centered Medical Home that provides an effective, integrated system of primary care, dental care, behavioral health care, optometry, education and social services reaching thousands of poor, uninsured, underserved, and homeless individuals in Atlanta each year. As a Federally Qualified Health Center, operating within an Integrated Care Model, we offer psychiatric treatment to patients at three locations in downtown Atlanta, one location north of downtown with a predominantly Spanish-speaking population, and on the streets through our Street Medicine Program. We are seeking dedicated psychiatrists working together within great teams to deliver high quality care to our clients.

✓ **Street Medicine**

- A harm-reduction trauma-informed approach to reducing morbidity and mortality of people sleeping unsheltered
- Team of primary care, psychiatry, nursing, and peer outreach providing direct primary and psychiatric treatment on the streets

✓ **Psychiatric Services**

- 1 hour new patient evaluations
- 30 minute follow-up visits
- Free formulary for patients experiencing homelessness

✓ **Creative environment**

- Young behavioral health program with the opportunity to influence growth and practice change
- Flexibility with telemedicine
- Enthusiasm for innovative approaches to providing high-quality care for vulnerable populations

✓ **Team Support**

- Work with Psychiatric Nurse Practitioners
- Support from nursing staff for holistic physical and mental healthcare

- Licensed social workers and counselors provide therapy, groups, and integration with primary care
- Case management assistance to address social determinants of health
- Pastoral care for spiritual support of individuals who desire it
- Work in consultation with primary care and HIV treatment providers
